

ONLINE TRAINING SOFTWARE

Easily create and deliver online training and certification courses.

Accounts

DigitalChalk has an account to fit any size business or school.

Professional

Training professionals have a personally branded account on DigitalChalk. Pro accounts get significant discounts on course delivery over the free account.

Business

Businesses can have up to five course administrators, mass user upload and API integration. Business accounts offer the option of delivering unlimited training to their staff for one flat fee monthly or annually.

Enterprise

Enterprises with 200 or more users get unlimited course delivery and 10 or more administrators. Enterprise accounts support single sign-on integration with corporate networks.

Features

- HD Video Encoding & Streaming
- Shopping Cart with credit card processing
- Integrated multimedia lesson editor
- SCORM 1.2 support
- Advanced Tracking & Reporting

System Capabilities

Build Your Courses

Use our integrated tools or import Web & SCORM content. All the tools you need to build world-class training material are at your fingertips:

Presentations

Include video, audio, slides and web pages into your lessons.

Files

Upload and attach any type file as part of your lesson.

Assignments

Include assignments that can be instructor graded or auto graded.

Tests

Build auto grading tests with True/False, multi-choice questions. Randomization, question pooling, timed delivery and feedback features are all available.

Certificates

Build a customized certificate that is generated for each student that passes the course.

Deliver Your Courses

DigitalChalk gives you virtually unlimited flexibility for delivering your material.

Registration

Students can self-register or you can register them. If you want to charge a fee, we offer credit card processing.

Notification

Receive automatic notification of registration, element completion or course completion.

Availability

You determine what content is available and when. Limits and tracking can be setup for any element.

Completion

You set the criteria for course completion based on content or schedule.
