What our Customers Say

★ ★ ★ ★ ★

"I love that Digital Chalk is user-friendly both for those taking training and the LMS administrators. I have used several different LMSs, and none have been as user-friendly as Digital Chalk, especially on the admin side. It is very straight-forward. Also, Digital Chalk has the best customer support that I've experienced."

★ ★ ★ ★ ★

*"Clearly created by people who understand and are interested in *real* online learning. Everything in one place – including a home for you video-conferences and off-net meetings – demonstrating that they think of the student and not just their own software/system. Not just a "collection of videos shoved into an online folder". A proper system. Exceptional support – lovely people with whom to conduct business."*

Why DigitalChalk CE LMS?

With us, you can create and sell accredited course content that makes a difference in your students' lives.
